

ANSN

HUB

BACKGROUND

In 2017, *PolicyWise for Children and Families** was contracted by Alberta Health, a provincial government ministry, to support the development, implementation, and evaluation of community-based integrated service delivery hubs to address mental health needs of youth across Alberta. The Alexis FASD Services and its partners were successful recipients of a one-year grant in May 2019 to develop a community-led program focused on strengthening and mobilizing existing capacity in community.

Phase 1 of the **ANSN-Policywise Community-based Integrated Mental Health Services for Youth Project** began October 1, 2019 and Phase 2 on July 1, 2020. Our focus is **UGICIGEBICEN**, 'to help each other' strengthen and mobilize existing supports for our youth. Services identified throughout the *Policywise* research* included but not limited to:

- Sexual health
- Substance use/misuse
- Employment-training support
- Housing
- Education support
- Income assistance
- Peer support
- Transition support

Renamed "ANSN Youth Hub", the program reports to ANSN Social Development and currently employs 3 staff; Supervisor, 2 Connectors for Youth.
